W: Hello, citizens of Grandville. I'm your mayor, Clara Bennett. As you know, our city is going to have a charity auction for the local children's hospital. I'm sure that many citizens are paying attention to this special event, so we're looking for volunteers for the event. The volunteers are going to take care of categorizing donated items and cleaning up the event hall. I hope you can make a truly memorable contribution to our community. If you're interested, please visit www.grandville.gov and fill out the volunteer application. Thank you for your help in advance.

[Door knocks.]

M: Come on in, Ms. Dale. Take a seat.

W: Good afternoon, Mr. Harrison. Thank you for your time.

M: No problem. I'm happy to share my teaching experience with you. How can I help?

W: Well, students in my class are having a hard time memorizing vocabulary. Do you have any ideas on how to make it easier for them?

M: Hmm, how about using songs? Songs are helpful for remembering vocabulary easily.

W: Do you really think so?

M: Yes. The repetition of the melody and rhythm in a song can help them remember words for longer periods of time.

W: That makes sense.

M: Also, you can see students enjoy learning vocabulary through songs. Learning is easier when it's fun.

W: Sounds good. I should try that.

M: I'm sure songs will help your students to easily remember vocabulary.

W: Thank you for your advice.

M: Yeah. The facilities look renovated and clean.

W: Due to the increasing concerns about abandoned animals, more donations were made, which allowed us to renovate.

M: That's good. It looks like the number of workers in this shelter has increased as well.

W: That's true. There were only three people including me working here, but now there are five.

M: I see. Well, as I told you on the phone, I brought dog food to donate.

W: Thank you so much. Your donations have always been a great help for our animals.

M: I'm glad to hear that. Then I'll bring the food from my car.

W: Can I help you?

M: Thank you. Let's go to the parking lot together.

W: Yeah. He used to play the violin in front of us. Look at the picture on the wall. It's a picture of the music club members.

M: Looks lovely. By the way, what are those two boxes next to the plant for?

W: Those are the gifts we prepared for Mr. Peters. And, do you see the cake on the table?

M: Yes. Is that the cake you were baking last night? He must have loved it.

W: I'm looking at this catalogue of water purifiers we can rent. Why don't we choose one together?

M: Sure. How much can we spend on the monthly rental fee?

W: We can't afford more than \$40.

M: Then let's cross this out. Do you think we should get one with hot water?

W: Yes. I drink a lot of hot tea, so a water purifier with hot water will be more convenient.

M: All right. What about the filter replacement? We can ask service engineers to visit our home to change the filters or do that by ourselves.

W: Well, which one is better?

M: Hmm, replacing a filter by myself doesn't seem difficult. Let's choose the self replacement option.

W: Okay. Now, there are only two options left. Which color do you like?

M: I prefer the white one since it'll match with our kitchen better.

W: I agree. Then let's rent this.

M: What's that?

W: It's voluntarily avoiding the use of digital devices like smartphones for a certain amount of time.

M: But it'll be hard to just stop using them so suddenly.

W: Well, how about doing more productive activities instead? By focusing on other activities, you won't think of using digital devices.

M: Okay, you have a point. Once I get into a productive activity, I may not think about digital devices.

W: Right. You can do anything you want during that time. Why don't you start painting again?

M: Good idea. It'll take my mind away from smart devices.

다음을 듣고, 물음에 답하십시오.

M: Good morning, students. Last class, we talked about how animals in the ocean live together. Today, I'm going to tell you how sea creatures defend themselves. First, many ocean inhabitants use large groups to protect themselves from predators. For example, penguins often enter the water in groups in an attempt to confuse predators. Second, one form of concealment animals use is disguising themselves to blend in with their surroundings. Sea horses act like coral by clinging to it with their tails so a predator may not notice them. Third, many forms of sea life use poisons to drive off predators. Jellyfish have stinging body parts, which not only paralyze their food but also provide protection from predators. Lastly, some marine creatures use protective shells that prevent predators from attacking them. Oysters have thick and hard covers that protect them. Isn't that interesting? Now, let's watch a video to help you understand better.
